Only the partner who is negligent or who was negligent in supervising or controlling the employee who was negligent will have his or her assets exposed if the claim is successful. Generally, LLP's are used by professionals (lawyers, accountants, engineers) where their governing bodies permit them to operate as LLPs.

Limited Partnership: A partnership comprised of limited partners and general partners. General partners have decision making authority and if the partnership is successfully sued, their personal assets may be looked to if the assets of the business are insufficient to cover the debts. Limited partners do not participate in the day-to-day operations of a business and their liability is limited to the amount of money he or she invested in the partnership.
